The conference will focus on nano-information materials, nano-energy and environmental materials, nanodevices and sensors, nanomedicine, nanopharmacy and biomedical engineering, nanofabrication and nanometrology, characterization of nanostructures, nano-optics and plasmonics, as well as modeling and simulation of nanostructures. We sincerely hope that the scope of the conference will serve the interest of the scientific community, as well as the industry and the general public. I wish to extend my welcome to all participants and sponsors of the event.

Looking forward to meeting you in Beijing in 2009.

With best wishes I remain,

Chairman, Organizing Committee of *ChinaNANO 2009*
